

SARCRAWL

Codice prodotto: 3400161

Category: PMC

Active foam for domestic use against cockroaches and ants

Italian Ministry of Health Registration:

n. 18763

Formula:

Foam

Description:

SARCRAWL is an insecticidal foam that eliminates ants, cockroaches and other crawling insects.
The foam disappears quickly after dispensing, leaving an invisible active barrier against insects.

Method of use:

Against cockroaches Spray in corners and crevices, behind furniture and appliances, behind sanitary ware, etc.
Against ants Against ants: spray at thresholds and door and window jambs, balconies, window sills, skirting boards, etc.
Dispense SARCRAWL by directing the straw towards the desired position to reach the most difficult spots. Treat surfaces in front of walls, doors, furniture, appliances, etc. in 5-10-cm-deep strips, spraying the product for about 10 seconds every metre (corresponding to about 130 gr of product).
In the case of non-absorbent surfaces (such as tiles, sanitary ware, etc.) the doses can be halved.
The dispensed product remains active for approximately one week.

User:

Professional

Warnings:

Do not contaminate foodstuffs, beverages or their containers during use. After application or in case of contact with the skin, wash thoroughly with soap and water. Avoid inhaling the spray directly or spraying it into the eyes. Do not spray into the air. If the surfaces to be treated are delicate, test a small area before treatment. If used in areas of long-term occupancy or in

bedrooms, ventilate the room before returning.
