

## KAT RODITOR

**Codice prodotto: 2530418**

**Category: Absent**

Square-shaped rodenticide bait dispenser

### Description:

Container for rodenticide baits complying with all safety and hygiene regulations. Suitable for mice and rats. Suitable for mice and rats.

Equipped with a safety lock. Indoors, the bait can be placed in the tray or in the block holder, which can be positioned either horizontally or vertically.

Suitable for indoor and outdoor use. Ideal for the food industry;

### Technical information:

Dimensions: 26 x 15 x 10 cm

Weight: 470 g

### Method of use:

Install the dispenser along the wall fixing it with expansion nails or similar. Open the lid of the dispenser using the special key, and fill with rodenticide bait.

Once the container is secured, only mice and rats will have access to the bait.

In accordance with current safety and hygiene regulations, rodent extermination must be carried out in such a way that children, pets and unaware persons cannot come into contact with the rodenticide baits.

The use of KAT RODITOR simplifies the checking and renewal of rodenticide baits, prolongs the palatability of the baits and protects them, thus significantly improving the effectiveness of the rodent control.

Can be used both with bait in sachets and with bait in blocks.
