

IRON TRAP

Codice prodotto: 2530376

Category: Absent

Metal trap for trapping mice

Description:

Galvanised metal trap with double entry and transparent lid. Easy to inspect and shock resistant, thanks to its effective mechanism it allows the multiple trappingr of mice. Also suitable for insertion of adhesive cardboard.
Suitable for civil and industrial environments. Ideal for the food industry;

Technical information:

Dimensions: 26.5 x 16.5 x 6.8 cm

Method of use:

Place traps at a distance of 5-10 metres from each other, depending on the presumed degree of infestation, along the rodents' habitual routes identifiable by droppings, hairs, greasy traces, tracks, etc., or near shelters, crevices, ducts and electrical panels, dishwashers, doors and cracks, lofts, platforms, etc.
Can also be used in particularly damp environments.
The use of the adhesive card facilitates the removal of captured rodents.
