

CITY RAT

Codice prodotto: 2530408

Category: Absent

T-shaped rodenticide bait dispenser with cylindrical core

Description:

T-shaped container for rodenticide baits that complies with all safety and hygiene rules, suitable for mice and rats in outdoor spaces.

Equipped with a lock with anti-breakage safety feature. Inside, a cylindrical plastic core allows for practical loading of rodenticide baits.

Technical information:

Dimensions: 25 x 60 x 20 cm

Weight: 300 g

Method of use:

Install the dispenser along the wall using expansion nails or similar.

Open the lid of the dispenser using the special key provided.

fill with rodenticidal bait

remove the key and trigger the locking mechanism

Once the container is secured, only mice and rats can access the bait. In accordance with current safety and hygiene regulations, rodent extermination must be carried out in such a way that children, pets and unaware persons cannot come into contact with the rodenticide baits.

The use of City Rat simplifies the checking and renewal of rodenticide baits, prolongs the palatability of the baits and protects them, thus significantly improving the effectiveness of the rodent control.

Can be used both with bait in sachets and with bait in blocks.
