

MOUSE TABLET

Codice prodotto: 2468002

Category: Absent

Pre-coated Masonite glue trap

Description:

Ready-to-use Masonite tablet coated with special glue. Safe and ecological, unalterable over time and resistant to weather. Thanks to its characteristics and size, it provides targeted coverage of small areas.

Technical information:

Dimensions: 19 x 14 cm

Method of use:

Separate the two tablets and place them along the walls (with the longer side leaning against the walls) in areas through which the pests pass. The attractiveness of the tablets can be increased with food, such as small pieces of cheese and PASTE, by placing them at the centre of the boards.
In case of soiling, the tablets can be easily cleaned with petrol.

User:

Professional

Unit of sales:

2 tablets per bag
