

KENYAFOG

Codice prodotto: 440050

Category: PMC

Liquid insecticide based on natural Pyrethrum for domestic and civil use specifically for livestock and stables

Italian Ministry of Health Registration:

n. 1694

Formula:

Liquids

Description:

Ready-to-use liquid insecticide especially recommended for the control of flies, mosquitoes, wasps, cockroaches, silverfish, fleas, lice, mites, which infest farms and stables. The medium is formed of refined oils free of colour, taste and odour. The characteristic properties of Pyrethrum – knockdown effect combined with repellent effect – allow this formulation to be used for treatment of the whole environment even in the presence of animals.

Method of use:

It can be applied by spraying in the environment against flying insects; by spraying on surfaces against flying insects and larvae.
Treatments in space (flying insects) 0.10 – 0.15 l per 200 cubic metres.
Treatments on surfaces (crawling insects) 1 litre per 100 square metres.

User:

Professional

Unit of sales:

5l tank
25l tank

Notes:

Medical Device with insecticidal action – use with caution. Always read the label and product information before use.
