INSECT BITE ROLL ON

Codice prodotto: 3000022

Category: Absent

Roll-on insect bite gel with plant extracts

Formula:

Gel

Description:

The INSECT BITE GEL is a product based on natural extracts and acetic acid. Applied promptly to the affected skin, it provides relief after bites from mosquitoes, flies, wasps and horseflies. It can also be used in case of contact with nettles, jellyfish and other stinging agents. Extracts of chamomile, aloe, mallow and calendula have a soothing effect. Thanks to the presence of sodium hyaluronate, glycerine and acetic acid, the product has a calming effect that provides immediate relief and refreshes the skin for a long time.

Method of use:

Massage the irritated area lightly with the diffuser. If necessary, repeat after 10-15 minutes.

User:

Domestic

Warnings:

For external use only. Keep out of reach of children. Avoid touching the mouth and eyes with the applicator. Discontinue use if redness or skin irritation occurs. Do not apply to injured skin or in the presence of skin diseases and allergies.
