RATCATCHER

Codice prodotto: 2401103

Category: Absent

Ready-to-use rodent glue for catching mice, rats and crawling insects.

Description:

Brown rodent glue for catching mice, rats and crawling insects. It has good adhesive properties and resistance to damp. Applied evenly to surfaces such as cardboard and wooden boards, it forms a trap for pests which, when passed over, are captured. Can be used to eliminate rodent infestations in homes, garages, warehouses, stores, farms and rural areas in general.

Method of use:

Use: Apply a strip to wooden boards or other material and place it where mice and rats are present. Applied to the trunk of plants, it forms a protective ring that blocks the movement of pests.
