

NEBULO® EVO

Codice prodotto: 3205303

Category: Assente

Electric Cold Fogger ULV

Description:

NEBULO® EVO is the result of field experience and thorough research carried out by Copyr to offer its customers equipment manufactured using leading-edge technologies. The main features of NEBULO® EVO are:

- thermoplastic structure, resistant to impacts and chemicals agents
- powerful electric motor
- innovative flow regulation system
- optimal flow direction thanks to extension pipe (optional)
- backpack harness (optional)

The flow regulator, thanks to a special needle adjustment system, allows to keep the amount of sprayed liquid constantly under control (from 15 to 200 cc a minute, according to the viscosity of the liquid). NEBULO® EVO outlet droplets have an average diameter of 20 micron, ensuring to the ULV fog produced long floating times.

Technical information:

Motor: Electric, 220-240 V 50/60 Hz (110-120 V u 50/60 Hz upon request)

Power: 700 W

Net weight: 3 Kg

Reservoir: 4 Litres

Size: H 40 cm, L 35 cm, Ø Reservoir 25 cm

Extension Pipe (optional): Ø 82 x 7,5 cm

Method of use:

Nebulo®EVO is a versatile ULV cold fogger:
