

CRAWL TRAP

Codice prodotto: 2530451

Category: Absent

Trap with glue board for monitoring crawling insects.

Description:

Translucent plastic trap for quick and easy monitoring of crawling insect infestations thanks to the adhesive cardboard inside. Can be used individually or in combination with the rodenticide bait dispenser. **MOUSE BOX**, installed on the bottom of the dispenser, allows for easy and complete management of the monitoring point. Can also be used as a container for insecticide gel baits.

Technical information:

Dimensions (luxlaxh): 10.6 x 8.54 x 1.92 cm
Weight: 39 g
Colour: translucent white
Cardboard adhesive (luxla): 17.8 x 5.94 cm

Method of use:

As a monitoring point
Place the trap at the location to be monitored after inserting the glue card into the trap.
As a bait point
Place the specific gel bait for the pest (cockroaches or ants) on the tray and place the container at the location where a bait point is to be set.
