GAS-FREE INSECT REPELLENT SPRAY LOTION AGAINST GNATS AND MOSQUITOES

Italian Ministry of Health Registration:

IT/2017/00377/AUT

Formula:

Liquid Spray No Gas

Description:

INSECT REPELLENT is an insect-repellent lotion that uses the properties of N,N-diethyl-m-toluamide to keep away midge and mosquitoes. Essence of citronella has been added to the insect-repellent lotion to add a good fragrance on the skin.

Method of use:

Using the vaporizer mounted on the bottle, spray the INSECT REPELLENT on the body and massage gently, avoiding contact with eyes and mucous membranes. Two applications per day are recommended.

User:

Domestic, Professional
