

BROMUS HOBBY Paste

Codice prodotto: 2450620

Category: Biocide

Ready-to-use rodenticide bait in the form of fresh paste - FOR NON-PROFESSIONAL USE

Italian Ministry of Health Registration:

IT/2018/00464/AUT

Description:

BROMUS HOBBY PASTE is a ready-to-use rodenticidal bait based on an anticoagulant active substance, known as Brodifacoum, effective against house mice (*Mus musculus*), common rats (*Rattus norvegicus*), even after a single ingestion. The formulation consists of a fresh paste that is palatable to the indicated rodent species.
The product does not alert or arouse suspicion in other components of the rodent population. BROMUS HOBBY PASTE contains a bitter substance to prevent accidental ingestion by children. BROMUS HOBBY PASTE can be used in and around buildings such as houses, cellars, garages, storage rooms and private gardens.
TARGET ORGANISMS
House mice (*Mus musculus*), both young and adult, common rats (*Rattus norvegicus*), both young and adults.

Method of use:

BROMUS HOBBY PASTE is a ready-to-use bait in the form of a fresh paste, to be used exclusively in tamper-proof, properly marked bait containers, protected from the weather, ingestion by non-target species
and dispersal in the environment.

User:

Domestic

Warnings:

Read and follow product instructions as well as information accompanying the product or provided at the point of sale before use.
Consider non-chemical control mechanisms (e.g. traps) before using rodenticide products. Remove food sources within easy reach of rodents (e.g. spilled grain or food
waste). Also, do not clean up the infested area just before treatment, as this only disturbs the rodent population and makes it

more difficult to gain acceptance of the bait.
Bait containers should be placed in close proximity to places where rodent activity has been previously verified (e.g. walkways, nests, livestock entrance fences, openings, burrows, etc.).
Where possible, secure bait containers to the ground or other structures. Place the product out of reach of children, birds, pets, farm animals and other non-target
animals. Place product away from food, drink and animal feed, as well as utensils or surfaces that may come in contact with the product. Do not place bait containers near water drainage systems as the bait may come into contact with water.
Do not eat, drink or smoke when using this product. Wash hands and directly exposed skin after using the product.
