Perfumed detergent for professional use with sanitising action.

Description:

Perfumed detergent for professional use with sanitizing action.
Thanks to its formula with perfumed essences, quaternary ammonium salts, sequestering and emulsifying agents, it is able to break down unpleasant odours, leaving surfaces clean and sanitised.
It is suitable for cleaning and deodorizing dumpsters, storage areas, waste management and disposal areas, bin areas or market areas. It can also be used on pavements, road surfaces, in the vicinity of lay-bys, service and refreshment areas, or malodorous areas such as public toilets, changing rooms and toilets in gyms or schools. It can be used in the forecourts of canning factories and in the perimeter areas of farms.
It is easy to use on washable floors and surfaces, does not affect them and does not require rinsing.
Leaves a pleasant and persistent scent in the environment.

Method of use:

Dilute in water at 3% to 5% (30 – 50 ml per litre of water) depending on the degree of dirt to be removed and undertake cleaning with scrubbing machines.
No rinsing required. Does not affect wax-treated surfaces.

User:

Professional
